

***INCORPORATED VILLAGE OF ROCKVILLE CENTRE
BUILDING DEPARTMENT***

ELECTRICAL GENERATOR PERMITS

REQUISITES FOR ELECTRICAL GENERATOR PERMIT:

- Completed and notarized Building Application form, fee to be determined and calculated by cost of installation.
- Two (2) copies of an accurate and legible survey of your property.
- Proposed location of generator on a plot plan.
- Electrical schematic details of all proposed wiring to all electrical connections.
- Electrical inspection form filed with the approved electrical inspection agency by a licensed RVC electrician.
- Plans must indicate installation of transfer switch including manufacturer's details, with approval from an authorized electrical inspection agency as well as the Village of Rockville Centre Electric Department prior to energizing and final approvals.
- Installation is to comply with manufacturer's specifications for all clearances to/from windows, openings, ventilation, etc. and all applicable installation codes.
- Location of generator is subject to the Superintendent of Building Department approval.
