Viewpoint: Comments by Mayor Francis X. Murray *Working To Preserve Our Suburban Way Of Life*

Spring has sprung in our beautiful Village. The parks are buzzing with kids playing, the flowers are blooming, and the Village is bustling with activities for our residents. Our Village employees continue to be hard at work maintaining and upgrading our infrastructure, as well as serving every resident.

I am excited to share that construction is underway for Mr. B's inclusive playground at the John A. Anderson Recreation Center. The playground will feature a sensory dome, play structures with ramps, performance stage with instruments, and more. Upgrades to the park will also include new ADA-compliant restrooms, the installation of new LED lighting, new walking track, exercise stations, tennis court, and basketball court.

The boundless playground is coming to fruition thanks to grants from the New York State Dormitory Authority, Assemblywoman Judy Griffin, former New York State Senator Todd Kaminsky and generous donations from many of our local community groups.

Sadly, Governor Hochul attempted to bring back her plan to create high-density housing with her "Housing Compact" proposal that would require 800,000 units of "affordable" housing while stripping local government's ability to control zoning. This proposal would mandate that Rockville

Centre must substantially increase its housing units by 3% every three years. This equates to 504 new units in our Village every three years. Thank you to our residents who came out to our two public meetings and took the time to write our New York representatives to have this proposal excluded from the Governor's budget.

As your Mayor and President of New York State Conference of Mayors (NYCOM), I know firsthand that residents do not want to lose single house zoning. Homeowners want to control the character of their community and that begins

with local zoning. If we lose that control, it endangers our suburban way of life with larger classroom sizes, increased use of our roadways, a strain on our local services and first responders, as well as a threat to our environment. While the Governor's plan was withdrawn from the budget, we must remain vigilant against any attempt by Albany to take away power from local governments. We are the closest level of government to the residents and businesses in our community and we best understand the community and its needs.

I consider it a privilege to be the Mayor of Rockville Centre and pledge to continue to keep our home the desirable community it is, while striving to make it better for future generations.

Rockville Centre Celebrates 35TH Year as Tree City USA

For the last 35 consecutive years, the Village of Rockville Centre has been designated a "Tree City USA" by the National Arbor Day Foundation. This distinction is bestowed through meeting various criteria aimed at urban forestry management. And one of the programs highlighted each year is the planting of new trees around the Village.

"This recognition is an important badge of honor for our community," commented Mayor Francis X. Murray. "It recognizes

our commitment to planting more trees that enhance our streetscape and environment."

To celebrate Arbor Day and the Village's commitment to being a "Tree City," Mayor Francis X. Murray, Deputy Mayor Kathy Baxley, Trustee Katie Conlon, Director of Public Works Administration Gwynne Feiner, and DPW employee Maura Ressegger joined members of the Girls Scouts for a special planting. Members of Junior Scout Troop 849, Daisy Troop 838, and Brownie Troop 882 rolled up their sleeves and planted vibrant flowers at the Village Green. Deputy Baxley concluded the planting with a lesson on the importance of Arbor Day and trees in our Village at the recently planted Yoshino Cherry Tree.

Village of Rockville Centre Adopts Budget for Fiscal Year 2024

The Village of Rockville Centre adopted its budget for Fiscal Year 2024. Faced with rising health insurance mandates from the New York State Health Insurance Program, contractual union employee's salary increase, workers compensation insurance increase, and inflation, the Village will be piercing the NYS Real Estate Property Tax Cap of 2% by an additional 2.9%. The budget of \$53.4 million represents an increase of approximately \$26 per month for the average taxpayer.

"The budget for Fiscal 2024 was a challenging one to prepare due to the cost increases that are being felt nationwide," commented Comptroller Dennis Morgan. "We have labored to find a balance between tax increases and use of fund balance reserves to mitigate the tax burden on our residents."

The budget anticipates using approximately \$1.7 million of the Village fund balance to mitigate an even larger tax increase to residents. "At a time when inflation is impacting us all, the Village wanted to make sure any increase was as little as possible while not impacting any Village services our residents have come

to expect," commented Mayor Francis X. Murray.

During the Mayor's tenure, the Mayor has been within or below the tax cap for ten of his twelve years in office and has secured nearly \$50 million dollars in federal, state, local grants, and gifts to make improvements within the Village. The receipt of these grants reduces the need for the Village to borrow funds, lowering principal and interest costs and helping to hold the line on taxes. Much of the money has been used to improve roadways, upgrade water and electric infrastructure, parks, and services for seniors. In addition, grants have been obtained to help the Village Police and Fire Departments utilize advanced equipment to keep residents safe.

"We will continue to look for ways to reduce costs and bring in additional revenue to the Village, including being aggressive in pursuing grant money, private/public partnerships, and gifts to make improvements at little expense to our residents," continued Mayor Murray.

Residents can view the spending plan on the Villages website, www.rvcny.gov.

VILLAGE OF ROCKVILLE CENTRE STORM WATER GUIDE

Unlike waste water that goes into our sanitary sewers, storm water, and all that it is carrying, is not treated before being discharged to our surrounding water bodies. Storm Water comes from precipitation that flows across the ground or pavement when it rains or when snow and ice melt.

Storm water pollution can harm fish & other aquatic wildlife, kill native vegetation, destroy aquatic habitats, and make recreational areas unsafe and unpleasant. Nutrients carried by storm water may also cause undesirable algae and vegetative growth.

Substances carried by storm water that are considered to be pollutants are: sediment, trash, and debris, oil grease, and toxic chemicals, soap and paint products from outdoor maintenance activities. Please help protect our storm water by:

- Do not over-water. If water flows off your yard onto your driveway or sidewalk, your system is over watering.
- Do not rake or blow leaves or clippings into

the street, gutter or storm drain. Instead, dispose of waste by composting or bagging it and placing it with your household waste for pickup

- Follow directions on pesticides and fertilizers, (measure, do not estimate amounts).

Do not use if rain is predicted within 48 hours

- Always pick up after your pet. Flush waste down the toilet or dispose of it in the trash.

• NEVER DEPOSIT PET WASTE DIRECTLY IN STORM DRAIN!

- Pool and spa water must be de-chlorinated and be free of excess acid, alkali or color.

• When draining your pool all water should be directed to a drywell on your property

• Take your vehicle to a commercial car wash whenever possible. If you wash your vehicle at home, choose soaps or detergents labeled non-toxic, phosphate free or biodegradable

- Take items such as used batteries, oven cleaners, automotive fluids, painting products, TVs and computer monitors to a household Hazardous
